

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

CITY OF BOSTON.

City Document No. 92.

FIRST REPORT OF THE RECORD COMMISSIONERS.

To his Honor the Mayor and the City Council of Boston:—

The ordinance* creating the office of the Record Commissioners defines their duties as follows: "To complete, as far as practicable, the record of births, deaths and marriages in the town and city of Boston, prior to A. D. 1849." The reasons which led to the passage of the ordinance will be found in Appendix A, being a portion of the report of a Joint Standing Committee of the City Council for 1875.

A reasonable construction of the duties of the commissioners seems to include therein all such investigations as will directly assist in perfecting the record of the vital statistics of Boston. How great are the deficiencies in those records will be seen by the statements made in Appendix A; and although the readiest mode of supplying the information will be to copy the existing church records, the commissioners

* SECTION 1. In the month of July in the year 1875, or as soon thereafter as may be, and every fifth year thereafter, the Mayor shall appoint, subject to the approval and confirmation of the City Council, two suitable persons, to be termed Record Commissioners, who shall hold office for the term of five years from the first Monday in May in the year of their appointment, and until their successors shall be appointed and qualified. They shall have and exercise the powers and duties hereinafter designated, shall serve without compensation, and may be removed at any time by the mayor or by concurrent vote of two-thirds of both branches of the City Council, and all vacancies occurring from any cause shall be filled in the same manner as the original appointments are herein directed to be made.

SECT. 2. It shall be the duty of said commissioners to complete, so far as practicable, the record of births, marriages and deaths, in the town and city of Boston, prior to A. D. 1849, and to receive and collect all documents obtainable therefor. All documents and records so collected shall become at once the property of the City of Boston, and be deposited in the office of, and be in the charge of, the City Registrar, or such other officer as the City Council may direct.

SECT. 3. The said commissioners shall have no power to enter into any contract or agreement in behalf of the city with any person, whereby the expenditure of money, or any other obligation, shall be incurred, unless expressly authorized so to do by the City Council: *provided*, however, that, unless otherwise ordered, they shall have the charge and control of the expenditure of all moneys expressly appropriated for copying any documents or records supplementary to the town or city records.

Passed July 6, 1875.

[July 12, 1875, William H. Whitmore and William S. Appleton were nominated and confirmed as Record Commissioners.]

desire at this time to report upon certain preliminary investigations which they have made.

Evidently, any trustworthy information as to the names of the inhabitants of Boston during the period for which the registers are so defective, must be of the greatest value in any attempt to supplement those records. If we know the heads of families, we shall have a guide to the extent of the information yet to be obtained.

The earliest directory of the inhabitants of the town was published in 1789, and contained 1,474 names; the second in 1796, containing 3,531 names. No earlier list of names is known to be in print, except two given in Nathaniel Dearborn's "Boston Notions" (1848), and one appended to "John Dunton's Letters from New England," published by the Prince Society in 1867.

The various writers who have treated of our local history, Pemberton, Snow, Shaw, Dearborn, Drake and Shurtleff, have apparently been unable to make any attempt at supplying the names of the earlier inhabitants, or, indeed, of those living here at any date prior to 1789. The very defects which have led to the appointment of this commission have so disheartened our successive historians that they have all failed to write a town history of Boston. As is well known, a great proportion of the towns in New England possess full and satisfactory histories, not only of the acts of the communities, but of all families therein resident. Of Boston it may be said that much has been written about the town, and very little about the citizens.

It is with the greatest pleasure, then, that the commissioners announce that, very recently, documents have been recovered, which will enable those interested to gain a very satisfactory knowledge of the inhabitants of the town prior to A. D. 1700.

Although the records in charge of the city clerk, outside of the books of the town and of the selectmen, are very scanty, a number of very valuable papers have been found in the custody of the Board of Overseers of the Poor. That Board has recently had examined the papers which had accidentally come into its possession, and has kindly given the Record Commissioners every facility for examining and copying the same.

In this collection are portions of the tax lists of 1674 and 1676, and fortunately the missing parts are not parallel. There are at the State House tax lists for 1687 and 1688, and in the city clerk's office a list of inhabitants made in 1695.

Inasmuch as these lists will afford a very satisfactory

account of the heads of families in Boston for one generation, and as this information is at present not easily attainable by the public, it has seemed to the commissioners best to make this report, and to advise the publication of these lists. The field to be covered by their work is so large and the results will be so diversified, that it now seems best to report whenever any particular subdivision can be completed. In the present case it seems evident that the public good will best be served by furnishing a sufficient number of printed copies of these papers to supply all of our citizens who may desire them. Such documents are not easily read in the original, and the worn and tattered condition of these papers renders it highly undesirable that they should be handled often. A printed copy, carefully made, will meet the wants of all but special investigators, and will enable us to preserve the originals for posterity.

Should the present proposition be favorably received by the city government, the commissioners will feel encouraged to pursue other subdivisions of their work, in the belief that whatever directly contributes to a knowledge of the past history of Boston will be promptly made available by its inhabitants.

The commissioners, therefore, respectfully suggest that this report and the accompanying papers be printed for distribution.

W. H. WHITMORE,
W. S. APPLETON,
Record Commissioners.

CITY OF BOSTON.

IN BOARD OF ALDERMEN, Sept. 25, 1876.

Ordered, That the Record Commissioners be authorized to print and distribute fifteen hundred copies of their report, with the accompanying papers, at an expense not exceeding six hundred and fifty dollars, to be charged to the appropriation for Printing.

Read twice and passed: sent down for concurrence. Sept. 28; came up: concurred. Approved by the Mayor, Sept. 29, 1876.

APPENDIX A.

The following extracts from a report of the Joint Committee on the Public Library (City Document No. 46 of A. D. 1875) contain some special information in regard to the deficiencies in the city records, and are, therefore, worthy of reproduction. The committee reported in favor of establishing the Board of Record Commissioners, and, as this advice was accepted, the argumentative portions are omitted.

The report states as follows:—

“It appears by the statement of N. A. Apollonio, the City Registrar, hereto annexed, that the records of births, deaths and marriages in the City of Boston are now kept systematically and have been since the year 1849. This, however, is but a brief part of the period since the settlement of the town, and your committee is obliged to report great and deplorable deficiencies in the earlier records.

“To explain the extent of these deficiencies the following statements are copied from Shattuck’s Report on the Census of 1845, pp. 5, 130, showing the population of the town:—

A. D. 1680,	population was	4,500
1690,	“	7,000
1700,	“	6,700
1710,	“	9,000
1715–1724,	population averaged	11,000
1725–1734,	“	13,000
1735–1744,	“	17,000
1745–1754,	“	15,731
1755–1764,	“	15,631
1767–1774,	“	15,520
<hr/>		<hr/>
1811–1820,	“	38,274
1821–1830,	“	58,281
1831–1840,	“	78,603
1841–1845,	“	102,620

“It may be assumed that the annual number of births is about 3 in every 100 inhabitants, and the deaths about the same. Let us examine the number of probable births in Boston during certain periods:—

“1st. From 1630 to 1700, the probable average population was 3,000, giving 90 births per annum, and in 70 years 6,300 births. Our record has about 1,850 births.

“2d. From 1700 to 1744, average population, 13,000, births, 390 per annum,* or for 44 years, 17,160 births. Our record has 20,000 for the whole period, and is therefore reasonably full.

* Shattuck’s table shows in ten years, 1735–1744, there were 5,779 baptisms.

“ 3d. From 1744 to 1807, average population, 20,000 ; births, 600 per annum ; for 63 years,* 37,800 births. Our record has about 5,000 names, or not one seventh.

“ 4th. From 1807 to 1849, average population, 70,000 ; births, 2,100 per annum ; for 42 years, 88,200 births. Our meagre record is for 3,500 births.

“ We see then that for about a century, viz., from 1744 to 1849, the births must have amounted to at least 125,000, and our records preserve the names of but 8,500, or less than seven per cent.

“ As to deaths, the record is even worse. Out of at least 60,000 deaths which have occurred in Boston between 1630 and 1810, we have a record of some 4,700 only. In fact, these statistics are almost entirely wanting. Yet at the same time we are able to fix with considerable accuracy the number of deaths, since a weekly table was published for many years in the newspapers. A copy is given in Shattuck's Report, Appendix, p. 71, showing that from 1704 to 1774 there were 35,673 deaths.† Add 35 years (1775–1810), at 500 per annum, 17,500, and at least 10,000 for the 60 years previous to 1700, and the total is 60,000 deaths.

“ As to the marriages, in any particular period, the number is rather less than half the number of births. It seems, therefore, that from 1630 to 1807 there were undoubtedly some 25,000 to 30,000 marriages. Our volumes contain about 20,000 ; and this part of the record is the best of all.

“ We are forced to report, therefore, that in regard to the records of the city proper, between the years 1630 and 1849, not more than 7 per cent. of the births are preserved, about the same percentage of the deaths, and probably about two-thirds of the marriages. We also see that in regard to the births the deficiencies occur mainly in the century from 1744 to 1849, and that, owing to the increase in population, the greatest number of the unrecorded deaths occurred during the eighteenth century.

“ To any one familiar with the records of the towns in Massachusetts, and aware of the care and completeness with which records have generally been kept, this report on our Boston records will be a disappointment. It is impossible now to learn when or where the deficiencies in these records were caused. The successive town clerks may have neglected their duties, or the records may have been destroyed, or a part at least may yet be recoverable.

“ It is evidently the duty of the city, now that these deficiencies have been pointed out, to take immediate measures to fill the blanks by all the secondary evidence that can be obtained. Your committee, therefore, desire to point out the sources from which much important information can be at once procured.

“ The church records of baptisms, burials and marriages are numerous and copious. Although their records relate mainly to church members, with their families, this class during the last two centuries embraced by far the greater part of our citizens. Prior

* Also he shows in thirty years, 1745–1774, there were 12,284 baptisms.

† See tables later in this Appendix.

to 1700, at least seven churches were established here, and three or four times as many have been founded since.

“The custom of infant baptism enables us to obtain the births, therefore, of a great number of children, with an accuracy of date sufficient for all purposes. In fact, it is to be remembered that in England nothing but baptisms are recorded, and the system of town records of births, like the system of registering deeds, was practically employed in New England as a new plan.

“But inasmuch as the records of the thirty oldest churches of the city, are in private hands, and not generally accessible, and as,

moreover, they are always subject to destruction by fire or other accident, it is most desirable that carefully authenticated copies should be deposited with our other records, in the custody of the City Registrar.

“Again, as regards deaths, the tombstones of the three old graveyards in the city give much information, and that of the highest authenticity. Copies of these inscriptions have been printed, but a full and complete revision should be made, and the results placed in our city archives.

“As to marriages, the church records will supply much, and the newspapers of the day will add much more, as they will also to the record of deaths.

“Other sources of information, as deeds, family records, printed directories, etc., can also be depended upon as certain to be capable of giving valuable results.

“It seems, therefore, that not only are the deficiencies evident, but the means of supplying our wants are at hand, though in daily danger of destruction.

“The work calls for no large outlay, but it does require a continued and patient labor until all possible sources of information have been exhausted, and the results have been transferred to our Registry.

“Of the necessity of the work there can be no doubt. Every community recognizes the importance of preserving its records, and this city now properly expends a large sum annually for this object. It is of equal importance to collect the records of the past citizens of this city, and by prompt action a very satisfactory record can now be perfected.

“Your committee has examined chiefly the records of the city proper; but any plan of collecting missing records will equally embrace the archives of Charlestown, Dorchester, Roxbury, West Roxbury and Brighton, now included in our limits.”

The following documents were appended to the report:—

CITY REGISTRAR'S OFFICE, March 17, 1875.

W. H. WHITMORE, ESQ.:—

DEAR SIR,—In compliance with your request, I have the pleasure of furnishing you with a statement concerning the records belonging to this office, specifying the number of volumes they embrace, and the periods which they cover, together with their general condition.

As you are already aware, this office contains full and complete records of the births, marriages and deaths, from the year 1849 to the present time. The births during this period are comprised in twelve large volumes, containing, perhaps, an average of 15,000 names in each volume. For this same period there are fifteen volumes of marriage records, containing, probably, not far from 100,000 marriages. The records of deaths are contained in sixteen large volumes, embracing the period between 1810 and 1875. These records are full and complete. There are no records of deaths between 1800 and 1810. Whether none were kept during

that period, or whether they have been lost, it is impossible to determine.

In addition to the above there are, —

1. A volume of births, marriages and deaths, embracing the period between 1630 and 1666. This volume was transcribed on parchment, by order of the City Council, in 1856.

2. A volume containing over 20,000 births, during the period between 1630 and 1744. This volume has been transcribed within two years, and is believed to be full and complete.

3. A volume of 107 pages, containing births from 1744 to 1807. This record is not a complete one, and contains probably not more than 5,000 names.

4. A volume of about 70 pages, containing about 3,500 births, between 1800 and 1849. All the entries in this volume were made subsequent to 1849. The records during this period are exceedingly meagre, and make no pretensions to completeness.

In addition to the Marriage Records, before mentioned, are, —

1. A volume of 107 pages (lettered "A"), embracing the period from 1651 to 1662, and from 1689 to 1720, and containing about 4,300 marriages. Evidently not complete.

2. A volume of 141 pages (lettered "B"), containing about the same number of marriages as the preceding volume. The period embraced in this book is between 1720 and 1752.

3. A volume of 113 pages (lettered "C"), containing about 3,500 marriages, between 1750 and 1790.

4. A volume of 221 pages (lettered "D"), containing about 6,000 marriages. The period covered is between 1761 and 1807. There is no record of marriages between the years 1752 and 1761.

5. A volume of over 500 pages (lettered "E"), and contains about 8,000 marriages. The period embraced in this book is between 1807 and 1830. The record is believed to be reasonably complete.

6. A volume of about 450 pages (lettered "F"), containing in the neighborhood of 9,000 marriages, embraces the period between 1830 and 1840. This record is also a complete one.

A volume of about 320 pages (lettered "G"), containing about the same number of marriages as the preceding volume. It covers the period between 1840 and 1849.

In addition to the Records of Deaths, before mentioned, there are, —

1. A small volume of 39 pages, containing about 1,700 deaths. This record is a transcript of the deaths contained in the volume copied on parchment, before mentioned.

2. A volume of 79 pages, containing about 3,000 deaths, from 1700 to 1800. This record is manifestly very imperfect.

It is perhaps proper to say, that in addition to the above there is one volume containing marriages, in other towns of the State, of

parties residing in Boston. The marriages were prior to 1800, and were recorded in compliance with an Act of the Legislature in 1857 or 1858. The number of marriages recorded in this volume is about 1,000.

There are also about 60 volumes of Intentions of Marriage, reaching from 1707 to 1875. These are full and complete.

The Roxbury Records, to the period of annexation (1868), are comprised in nine volumes, viz. : —

Vol. 1. This book contains births, marriages and deaths, from 1630 to 1785. It is much worn and defaced, and some progress has been made towards having it transcribed.

Vol. 2 contains births from 1785 to 1844, and deaths from 1796 to 1844.

Vol. 3 covers the period between 1842 and 1849, and contains about 2,500 births, 600 marriages, and 1,500 deaths.

Vol. 4. Births from 1850 to 1864.

Vol. 5. “ “ 1864 to 1868.

Vol. 6. } Marriages from 1850 to 1868.

Vol. 7. }

Vol. 8. Deaths from 1850 to 1868.

Vol. 9. Out-of-town marriages.

The Records of Dorchester to the year of annexation (1870) are contained in 8 volumes, viz. : —

Vol. 1. 113 pp. Births, marriages and deaths, from 1631 to 1683.

Vol. 2. 206 pp. Births, marriages and deaths, from 1684 to 1744.

Vol. 3. 646 pp. Births, marriages and deaths, from 1745 to 1825.

Vol. 4. 300 pp. Births, marriages and deaths, from 1825 to 1844.

Vol. 5. 130 pp. Births, marriages and deaths, from 1844 to 1849.

Vol. 6. Births, from 1850 to 1869.

Vol. 7. Marriages, from 1850 to 1869.

Vol. 8. Deaths, “ “ “

I have omitted, in the above enumeration, the indices belonging to those records which are not alphabetically arranged. These indices are very numerous, and are methodically kept.

Hoping the foregoing statement will meet your wishes,

I am, very respectfully,

N. A. APOLLONIO.

WM. H. WHITMORE, Esq. : —

DEAR SIR, — In compliance with your wishes, I would state, that Messrs. Sampson & Davenport have been employed since the crea-

tion of the Registration Law, in 1839, to procure the returns of births in Boston. For this purpose they use a corps of canvassers, who commence their work on the first day of January each year, and finish it on or before the first day of February ensuing. A transcript is made of these returns on the city records, and the originals forwarded to the Secretary of the Commonwealth, in accordance with the law.

In collecting the births, town clerks and registrars are subject to the instructions of the Secretary of State, by whom they are directed to enter the name of every child they find born during the year, irrespective of the real place of its birth. After the returns are made from all the towns, the Secretary causes the foreign births to be eliminated from each, and assigned to their proper places. These returns, with those of marriages and deaths, which are forwarded in like manner, furnish the materials for the yearly State Registration Reports, issued by the State Department."

"I desire further to say that, after twenty-one years' observation of this method of making up the records, and no little reflection on the subject, I am persuaded that there is little or no room for improvement in this direction."

N. A. APOLLONIO.

NOTE. This may be regarded as a complete account of all the deaths, except the still-born. The intentions of marriage are also complete. The *marriages* are not all recorded, and very few of the births, as will appear evident from this abstract itself.

APPENDIX B.

INTRODUCTION.

In regard to the following list of tax-payers in the town of Boston, it is proper to say that it has been the intent of the editors to make a careful transcription of the names without emendation. The lists are in various handwritings and of very widely differing degrees of accuracy. Some of them are the revised lists prepared by practised clerks, and others are the hasty transcripts of less accomplished officials. Some of the writers used the modern forms of letters, and others retained the earlier style in vogue in the generation of the emigrants to New England. Every one who has had occasion to examine manuscripts is aware of the difficulty in discriminating between certain letters, and this difficulty is greatly increased by any lack of scholarship on the part of the writer. Again, a list of names is especially difficult of transcription, because there is no repetition of words or letters to assist the copyist in reading doubtful portions. There is no guide to the intent of the writer, since, when we feel sure of the name intended, we are not certain of the method of spelling followed by the writer. Again, the transcriber has not felt at liberty to seek other sources of information to learn the names of the inhabitants of Boston at the period, because there is no certainty that persons of names resembling those of well-known citizens did not also reside here for a short time.

In most cases the industry of genealogists will hereafter succeed in identifying the names here given; but as these lists are meant to be the sources of information, no attempt has been made to annotate the record. The sole object of the transcript is to give an exact copy of the words written on each paper, so far as they can be made out from a careful study thereof.

The original papers will all be carefully preserved in the city archives, and every one dissatisfied with the commissioners' version will have an opportunity to examine the documents anew.

Some clerical errors in these lists will strike every examiner. The forms of the vowels, *e*, *o*, *a*, *u*, are so easily confounded that it is difficult in many cases to decide which was meant; while on the other hand, it is clear that the old spelling and pronunciation often varied from the present form. Phonetic forms occur, as when Jeffries is placed under G in alphabetical lists, Eustis under U, and Uran under Y. Such a name as Maccarty is sometimes found under C as Carty. In fact, no name must be considered as wanting from the list until it has been sought under all possible variations of spelling.

Some apology may seem necessary for printing so many of these lists containing so many repetitions. In excuse it may be pleaded that all these facts are new to the public, and that these lists, it is feared, are all that remain of the great mass of such material once on record. The great deficiencies in the town records render it desirable that we should give all the information in our power as

to the length of time that any and every person remained in Boston. Often the nearest approach we can make to the date of the death of one of our early citizens will be the fact that he disappeared from the tax-list.

In order to save expense, the names only have been copied on most of the lists, the exceptions being the first town-rates of 1674 and 1676, and the very copious tax-lists of 1687 and 1688. In the latter especially, the details of the property of our citizens are given with so great thoroughness as to afford valuable information to the historian.

In respect to the system on which the lists were made, it is evident that the divisions to which the constables were apportioned were those of the military companies of the town.

Prior to 1670, the number of constables (besides one each for Rumney Marsh or Chelsea, and Muddy River or Brookline) was four. In town-meeting, March 14, 1669-70, the number was raised to six for Boston, and again, March 10th, 1677-78, to eight.

By the Colony records, it appears that October 7, 1674, the Court ordered the militia to be divided into companies of one hundred each, and in Boston eight companies were accordingly made. The captains were Major Thomas Clarke, Thomas Savage, Thomas Clark, 2d, John Richards, James Olliver, Daniel Henchman, William Hudson, John Hull.

We are not able to fix with certainty the boundaries of these early local subdivisions, though the well-known citizens in each list will afford a clue for an approximation.

In 1713, a division into eight wards was made, of which SHURTLEFF says (*Description of Boston*, p. 129) that no record remains. Fortunately, a copy has been discovered, and will be given herein, although two years later another division was made, quite different in its lines. There is a certain probability that the first plan followed the lines then in use for the military companies, and that any changes would appear in the second plan.

As Shurtleff shows, in August, 1713, the Selectmen made a division into wards, which was not put on the book, but "attested by the Town Clerk and put on file."

Among the papers discovered at the office of the Overseers of the Poor is an attested copy of this document, either the original or one made at the time for the use of that Board. It is as follows: —

At a meeting of the Selectmen of the Town of Boston, the 11th of August, 1713. Pursuant to the Vote of the Inhabitants of the s^d Town on the 13th of May last past. The s^d Select men have now agreed upon the foregoing distribution of the s^d Town into distinct Wards or Precints.

Attest :

JOSEPH PROUT,
Town Clerk.

[DIVISION OF WARDS, 1715.]

For some reason the foregoing arrangement did not prove satisfactory, and a change was made.

In the Selectmen's book under date of February 1, 1715, is the following entry : —

“Voted, That there be a division made of this Town into eight distinct Wards, in order to their inspecting each respective Ward.”

“Voted, That it be left wth the Selectmen to make such division suitable to that Occasion.”

On the 8th of February, 1715, the following plan was read and an agreement voted : —

This division is entered on the Selectmen's book, though our transcript is taken from a contemporaneous copy at the office of the Overseers of the Poor. It has been printed in Shurtleff's book, pp. 130-1.

Shurtleff indeed says that Burgiss's map of 1728, “substantially shows these boundaries by dotted lines.” A careful inspection fails to confirm this; whatever Burgiss's dots signify, they do *not* follow the lines of 1715. They resemble rather the lines of 1713 and *may* show the still older divisions of the preceding half-century.

Pemberton says (Mass. Hist. Soc. Coll. 1st s. iii., 267) that in 1735 the town was divided into twelve wards, which number long continued.

In Shaw's Description of Boston, pp. 111-115, is an account of the boundaries as settled in 1805.

[WARDS, 1715.]

North ward, No. 1. — Bounded North by Charles River & South by the North side of Fleet Street & Bennet Street.

Fleet ward, No. 2. — Bounded Northerly by the South side of Fleet Street & Bennet Street, and southerly by Wood & Beer lanes.

Bridge ward, No. 3. — Bounded Northerly by Wood & Beer Lanes, and Southerly by the Mill Creek.

Creek ward, No. 4. — Bounded Northerly by the Mill Creek & Southerly by the North side of Wings Lane from the Upper End thereof, the North side of Hannover street to the Orange Tree, & the North East side of Cambridge street.

Kings ward, No. 5. — Bounded Northerly by the South side of Wings Lane from the upper end thereof, the South side of Hannover street, & the South-westerly side of Cambridge; & Southerly p. the North side of Kings and Queens streets to the Southard of the School House, Mr. Cotons House the southermost House.

Change ward, No. 6. — Bounded Northerly by the South sides of King & Queen Streets, & Southerly by the North side of Milk street, thence the West side of Marlborough Street as far as Rawsons Lane, the North side thereof, & the North side the Common.

Pond ward, No. 7. — Bounded Northerly by the South side of Milk Street, thence the East side of Marlborough Street as far as Rawsons Lane the South side thereof, southerly by the North side of West & Pond Streets, blind lane & thence the North side of Summer Street.

South ward, No. 8. — Bounded Northerly by the South side of Summer Street as far as Church Green, the South side of Blind Lane, of Pond & West Street; and Southerly by the Towns Southern Bounds.

Feb'y 8th, 1715. Voted by y^e Justices, Selmen and Overseers of the Poor, an Agreem^t to the aboves^d Projection.

OFFICE OF THE OVERSEERS OF THE POOR, CHARITY BUILDING, }
COR. OF HAWKINS AND CHARDON STS. }

BOSTON, Nov. 2, 1876.

At a meeting of the Board of Overseers of the Poor, held November 1, 1876, it was

Voted, That the ancient tax-lists now in the possession of the Record Commissioners, for the purpose of being printed, and embraced in the list of papers placed by this Board in their hands for that purpose, be transferred to the keeping of the City Clerk for examination by any one interested.

A true copy.

TAX LIST OF 1674.

The following documents supply a large portion of the names of the tax-payers of Boston in 1674. The papers, which have been preserved, consist of four lists out of six corresponding to the divisions for the town, and also of the lists for Muddy River (Brookline) and Rumney Marsh (Chelsea). These are really the earliest lists extant, as although there is List No. 1 for a tax in 1673, the names are identical with those on the corresponding List No. 1 for 1674. Fortunately, also, there is, with each of the four Tax Lists, a preliminary list made by the constable, which gives the names of a number of persons not placed on the Tax List, being sojourners, servants, or children.

The result of these lists may be summed up as follows : —

List No. 1, 239 names on Tax List, 106 names added from the Preliminary List.											
"	2, 126	"	"	"	"	44	"	"	"	"	"
"	4, 132	"	"	"	"	84	"	"	"	"	"
"	5, 120	"	"	"	"	44	"	"	"	"	"
Mud'y Riv'r	44	"	"	"	"	20	"	"	"	"	"
Rum'y M'sh	30	"	"	"	"						
<hr/>						<hr/>					
691						298					
298											
<hr/>											
989											

About 989 names are thus recovered; a few, however, are entered on more than one list. It will be noted that in 1676 there were in all only 853 heads taxed; and this list gives us 691 names, besides nearly 300 more of persons who were undoubtedly living in the town. Hence we can estimate that we obtain five-sixths of the tax-payers in 1674.

Special comments will be made on each portion of the following list in the proper places, explaining the relation of the papers to each other.

PRELIMINARY LIST FOR No. 1 (1674) ENDORSED AS FOLLOWS:—

“ 1674. CONSTABLE GREENWOOD. LIST OF NAMES.”

This list, like the others hereafter mentioned, was probably prepared before the Tax List, and was a guide in making up the taxes. We shall find in the similar lists prepared by the other constables various memoranda in regard to the persons named, as that they were lodgers, servants, children, etc. But this list of Constable Greenwood's has nothing but the names, and is of service mainly as supplying the names of certain inhabitants who were not tax-payers.

The following list contains all the names on the Preliminary List which are not on the Tax List of 1674 in Greenwood's division, and printed in the preceding pages. There are 319 in all, 213 being also on the Tax List. The Tax List has also 26 names not on this. The numbers refer to the place on the original paper, which has seven columns of names:—

PRELIMINARY LIST FOR PAIGE'S DIVISION. — 1674.

With Constable Paige's account is found his preliminary statement, which has the additional feature of specifying the householders, lodgers, and servants. I have given herewith a full copy of this document, numbering the entries, and marking, with a star, the names which will be found on the official Tax List printed on the preceding pages.

 *Ed. perry at Molden
 & 2 or^s ditto
 Jno. Goffe.

In the foregoing list of 103 entries there are, also, 41 names of lodgers, servants, etc., or 144 names in all.

On the Tax List there are 126 names, of which 100 are on the Preliminary List (including the name of John King as twice recorded, though possibly meant for a son of the name also); this leaves 44 names on this list, not taxed in this district at least. Of these 14 are recorded as householders, and 30 as lodgers or servants.

The following changes of spelling are noticeable :—

5. James Roberts in one list, Robertson in the other.
37. Peter Gee “ “ “ Gay “ “ “
48. John King *seems* to be a duplicate of No. 14.
69. Joseph Townsend or Townsinge.
71. John Rickes or Rex.
74. Thomas Rickes or Rex.
75. Gawdy or Gode James.
79. John Jebson or Gepson.
82. Thomas Standary or Stanbeary.
83. George Halliote or Hallard.
92. Elias Stiff or Stef.
97. John and Jacob Fernside or Farensey.
98. William Whytaway or Whartway.

* See No. 7 in preceding list.

TAX LIST, DIVISION No. 4.—1674.

It will be seen that this list ends with the letter T, so that there must have been another sheet.

Again the pages add :—

	Town.	Country.
No. 1,	£23 08	£19 03
2,	11 17	9 11
3,	13 13	8 01
4,	21 00	11 17
	<hr/>	<hr/>
	69 18	48 12
Requiring	11 03	4 13
	<hr/>	<hr/>

To make up the sum of £81 01 53 05 which is charged to Bingley's list in the general statement prefixed.

We recover from the Supplementary List eleven names in U and W ; and, as they are well-known and wealthy citizens, their taxes would nearly make up the sum required. These names are :—

Hezekiah Usher, Sr.,
Hezekiah Usher, jr.,
John Usher,
John Waite,
Thomas Wattkins,
William Waycott,

Joseph Webb,
John Willkins,
Mildred Wills,
Experience Willis,
John Wissell, jr.

As in the previous examples, reference is made to the Preliminary List for this division printed immediately after it. The numbers in parenthesis, annexed to some names in this list, denote their positions in the other list.

“These are a List of the names of psons ratable. p. me
THO : BINGLEY, *Constable.*”

It is in four columns, on two pages ; the columns contain respectively 52, 52, 49 and 35 names. I have been thus precise, as I have affixed to the names, found therein, and on the Tax List, the number (in parenthesis) which they hold on this Supplementary List.

There are in all 188 names, of which 104 names are on the Tax List ; the 84 other names are mostly called servants. It is to be remembered that by servants are meant apprentices and workmen ; and in most instances the persons so described will be recognized as members of well-known families. The Tax List has 132 names, 28 being new.

I add the names on the Supplementary List, and *not* on the Tax List ; also are given some names, marked with a star, which *are* on the Tax List, but concerning which some additional information is given by this Preliminary List. The notes in parenthesis are mine ; everything else is copied from the original. The 11 names in small capitals are those beginning with U or W, and which *may* have been on the missing part of the Tax List.

The whole number of names on the Tax List is 132 (omitting Henry Ongram, who appears also as Henry Ingram), 104 being on the Preliminary List, and 28 being new names.

We thus get the names 132 and 84 = 216 persons in Bingley's division.

Names of the Preliminary List, *not* on the Tax List. The numbers refer to the original paper.

Tax List, Division No. 5.—1674.

This list has also a preliminary part, which is also printed, and the names found on both are marked with a star.

It appears that there are one hundred and twenty names on the Tax List, eighty-six of which are on the Preliminary List. The latter also has the names of twenty-seven servants, nine sojourners and eight sons, not on the Tax List; making one hundred and sixty-four names recovered in this division.

TAX LIST.—1676.

The documents next in date are four sheets out of six, comprising the valuation of Boston in 1676. The summary on sheet six shows that sheets one and five are missing. The individuals on the lists number

on p. 2, 74
3, 66
4, 66
6. 19

— 225 — and the other two sheets would give about one hundred and fifty names more, or three hundred and seventy-five heads of families. The tax calls for eight hundred and fifty-three heads, a discrepancy hard to explain if the plan of enumeration be the same as that in use in 1687, in which few persons were taxed for more than one “head” in each family. It is therefore probable that in the taxation of “heads” in 1676, the list for which is lacking, the minors, servants, etc., were assessed to the real head of the family.

It will be observed that the arrangement of these sheets is not by the local divisions; at least we do not find all of division one, two, or three, in consecutive order.

Tax List for 1681. (Imperfect.)

The next document is a tax list for 1681, of which we find the greater part, viz., divisions or precincts Nos. 2, 3, 4, 5, 7 and 8, and Rumney Marsh. The missing parts are for precincts Nos. 1 and 6, and Muddy River.

It has not seemed necessary to print the amount of the tax paid by each person, as the original can always be consulted to afford this information about the individuals not named in the preceding lists.

ALMSHOUSE RATE OF 1685.

The following extract, from "Snow's History of Boston" (p. 324), will explain the cause of this tax:—

"The old Alms House, Work House and Bridewell together with the Granary, were situated on Park street. The *Granary* was a long wooden building at the corner of Common st, capable of containing 12,000 bushels of grain, which it was customary for a committee, annually appointed by the town, to have stored in it for the accommodation of the poor and others who wished to purchase in small quantities, at an advance on the wholesale price not exceeding ten per cent. The *Alms House* was a two story brick building, in the form of an L., with a gable roof, appropriated to the aged and infirm poor. The *Work House* was a large brick building, 120 feet long, two stories high with a gable roof, for the reception of vagrant, idle and dissolute persons. *Bridewell* was contiguous to the work house and was a sort of prison for the disorderly: a part of the house was assigned to the insane."

"The first proposal for an Alms house on the Town records occurs in Nov. 1660. In Feb. 1685, a person is admitted into the Alms house. Dec. 16, 1682, the Alms house being burnt a new one is proposed: it was building June 2, 1686. The Work house was built in 1738."

DRAKE adds (p. 597) that the North End market-house fell into disuse, "was eventually taken down, and the timber used in the construction of a Work-house."

On Burgess's Map only three houses (those on the corner where the Tremont House stands) are depicted on the whole square enclosed by Beacon, Park and Tremont streets. Yet on Bonner's Map of 1722, as reproduced by George G. Smith, we find several more houses, together with the Bridewell on Park street, and the Almshouse on the corner of that street and Beacon street.

May 25, 1795, the town voted to sell all this land, and March 23, 1801, it was sold at auction by the agents of the town. The corner lot where the church now stands extended 118 feet up Park street; then came three lots, each 78 feet long, on that street, and bounded by the Granary burying-ground. The next lot was 72 feet wide, and extended back 156 feet, overlapping lot No. 3, and reaching to the grave-yard. Lot No. 5 was the corner lot, 66 feet on Park street and 156 feet on Beacon street. Lot No. 6 was 56 feet on Beacon street, running through to the grave-yard, and bounding east on the lot sold to William Phillips, and since covered by the Athenæum building.

On lot No. 6 the Misses Payne and their brother built a large double house with a drive-way through the centre. Lots 5 and 4 were bought by Thomas Amory, and here he built the large double house which has had as tenants Samuel Dexter, Christopher Gore and George Ticknor. On the Park street lots have lived Judge Artemas Ward, Abbott Lawrence, Gov. Gardner, the Quincys, Warrens, and other distinguished citizens of Boston.

BOSTON, VALUATION OF 1688.

At the State House also will be found in the Usurpation Papers, Vol. 129, pp. 139, *et seq.*, a list of tax-payers and their property, in Boston, in 1688.

Although a careful copy has been made of these lists, which will be placed at the City Clerk's office with other documents, it has been found unadvisable to undertake to print all the details of the taxable estates. In the following pages, therefore, only the names of the tax-payers are given, with the statement of the number of heads in each family.

“BOSTON VALUATION.

Boston, 27 August, 1688.

The Ten sheets of paper annexed Contain a List of the male Persons in the Town of Boston from Sixteen yeares old and upwards And an Estimation of y^e Real and Personal Estate in the said Town, whereby it appears

That y ^e Heads at 20 ^d . p ^r head comes to	£124. 18. 4
Estates at one penny p ^r pound comes to	83. 4. 8 $\frac{1}{4}$
	<hr/>
	£208. 3. 0 $\frac{1}{4}$.

TAX LIST FOR ONE PRECINCT. 1689.

The following list of names is probably one of the lists preliminary to some tax. It was clearly prepared by Samuel Greenwood, no doubt the constable of that name. Greenwood held that office in 1674, and again in 1689; this list is probably of the latter date.

* Of course in all these cases the name is that of the owner. The addition means that he owned a negro or mulatto, or had a servant.

TAX LIST OF 1691. LACKS RUMNEY MARSH ONLY.

Of the country rate for 1691 we have a nearly perfect list, the only missing part being that for Rumney Marsh. For reasons before stated we omit the amounts and give all the names.

LIST OF INHABITANTS. 1695.

In the City Clerk's office there is a book containing a list of inhabitants of the town in 1695, evidently made at that date.

The substance of it has been printed in "Boston Notions," but mixed with other names. We therefore now print it in its proper form, the names being arranged alphabetically, and under each letter, also, by precincts or wards.

"A LIST OF INHABITANTS IN BOSTON 1695."

INDEX OF NAMES.

In preparing the following Index, I have endeavored to assist the reader in finding names, but without warranting the correctness of my identifications. That is, I have placed under one head names which *seemed* to be probably the same, although varied in spelling. But the reader is again warned that the spelling of so many names is varied on these lists as to render it impossible to place them under definite and certain headings. Thus, we have Jeffries under Gefferies, Eustis under Ustice, Chaddock and Shaddock, Ersey, probably for Hersey, and innumerable instances of changes of vowels. Hence the searcher for any name must look for it under all possible variations, and must follow out all references to names resembling the one sought: *a name may be under more than one heading*. He must search all names under the initial letter of the name, and must also search under any other initial which could be interchanged therewith.

It is hoped that every name on the foregoing lists has been safely transferred to the following columns.

Boston, December, 1876.

W. H. WHITMORE.

It will be seen, however, that Boston still remains without a complete history in print, and that, therefore, the publication of any portion of its records is not unnecessary.

It is also to be remembered that Boston now comprises at least three other ancient towns, each with records and a history of its own. These may well demand in the future a proper amount of attention, and require proportionate publication.

It is hoped that the City Government will authorize the Record Commissioners to continue the work of publishing the records; of course not in full, but by means of such judicious selections as will afford valuable information about our predecessors.

Owing to the nature of the work, the duty of editing the First Book of Records and of transcribing the Book of Possessions has devolved exclusively upon the senior commissioner.

Respectfully submitted,

WILLIAM H. WHITMORE,
WILLIAM S. APPLETON,

Record Commissioners.

BOSTON TOWN RECORDS.

NOTE. — It is intended that the following pages shall be an exact transcript of the original record, with the exception that abbreviations peculiar to written documents are herein printed in full. That is, the form "y^e" for "the," "y^t" for "that," "wth" for "with," "&" for "and," are confessedly not the forms used in printed documents of the date of these records. Hence, although it is intended to preserve all peculiarities of spelling, a retention of these contracted forms of writing would only unnecessarily add to the difficulty of using this transcript.

The pagination of the original volume is inserted in our text in brackets.

Every portion of the original is copied, except those marginal notes which are simply indicative of the full record in the text. No use can be found for such notes which would in any degree compensate for the additional cost of printing.

This edition is printed from a copy made by W. B. Trask, Esq., and has been compared with a copy made in 1855 by Mr. Morse for the City Government, as well as with the original record.

[142.] 2 : 2 : 58.

Att a meeting of Mr. Tho. Broughton, Mr. Tho. Lake, Mr. Jacob Sheafe, ens. Jno. Hull, Mr. Wm. Paddy, and Wm. Davis.

Bird Iland is lett to James Everill and Rich. Woody for sixty yeares, paying 12*d.* silver or a bushell of salt every first of March to the Town Treasurer, and in defect of payment att the day 2*s.* or two bushells of salt, and so 12*d.* or a bushell of salt for every month's neglect, and the said Iland is bound for payment.

Whereas severall parcells of the townes ground is taken up by sellar doores, which proove accomodable to many of the inhabitants, and in time by custome may bee claimed to bee propriety by the present or future possessors of such houses as enjoy that privilegedg. Itt is therefore ordered that every person that hath or shall have a cellar doore into any of the streets of the towne shall pay twelve pence every first of March to the Towne Treasurer, and in case of non-payment the Treasurer of the Towne is impowered to leavy the same by distress.

Whereas Mr. Habacuck Glover hath sett up severall pillars upon the townes ground to support his house; Itt is ordered that the

said Glover shall pay twelve pence for every such pillar so erected, every first of March to the Towne Treasurer.

Whereas divers offences arise through defective fences, and different apprehensions of the sufficiency of fences betweene proprietors ; Itt is therefore ordered that all outside fences aboutt pastures or cornfeilds shall be substantially fenced, either with five rayles, or posts and pales, or sufficient stone walls, or other wise, according to the judgment of the select men ; and that all partitionall fences betweene lott and lott shall be ordered by the select men, in case of the disagreement of the proprietors ; and in case any damage arise to others, by the defect of fences, the party whose fence is defective shall pay all damages, as shall bee adjudged by the select men or any deputed by them upon the complaint of any damaged.

Itt is ordered that demand bee made of Leiut. Turner for a high way from Elder Pen's to centry hill ; according to a former order of towne.

There is let unto Leiut. Wm. Hudson the Lane between Elder Pen and M^r. Willson's Garden, during the Townes pleasure, he paying ten shillings everie first of March to the Townes Treasurer, and to secure it that it may be ready for passage of Horse and foote, without Interruption.

[143.] Whereas by long and sad experience very many and greatt damages have accrued to this towne by swine, besides the many dangers that children have beene in of loss of life and limb, and elder people also of greatt hurt, by the unrulines and ravenousnes of swine, and notwithstanding the law in that case provided by the Gen. Court that requires the making and constituting effectuall orders to prevent all harmes by swine. And although yearely endeavours have beene to attaine the end aforesaid and yett fruittles.

Itt is therefore ordered that henceforth every inhabitant in this towne that shall keepe any swine within this towne after the first of the next month they shall constantly keepe up such swine in their owne ground. And in case any swine in any part of this towne, outt of the owner's lands, the owner of such swine shall pay for every such defect two shillings, sixe pence to the Townes Treasurer, for the townes use, to be leavied by warrant under his hand, or any other of the select men, to the constable. And to the end this order may nott bee frustrated, itt shall bee lawfull for (and is desired of) every one to inform of the breach of this order, and shall have liberty to impound such swine, for which the one halfe of the fines shall bee allowed to the enformer or impounder.

And notwithstanding the aforesaid order of keeping upp swine, yett shall so keep them up to the anoyance of any neighbours or travellers through the common streets or high wayes, upon the foresaid poenalty for every offence, after notice given them by any of the select men.

26 : 2 : 58.

Att a meeting of M^r. Wm. Paddy, M^r. Tho. Lake, M^r. Jacob Sheafe, ens. Jos. Scotto, ens. Jno. Hull, and Wm. Davis.

[145.] Whereas many children and others are exposed to many dangers by Carts, either by being left carelessly in the streetes without their drivers, or else by the Carters riding through the towne in their Carts, Itt is therefore ordered that henceforth all horse-carts shall bee led by the carters with a rayne, and shall nott be left loose in any streete, butt shall bee tyed to some place where they may not break loose. And itt is further ordered that no other Carters shall bee permitted to ride in their Carts, when they drive through the towne, nor leave their oxen standing loose in any streete; And in case any shall bee seene to act contrary to this order, they shall pay two shillings for every such offence, and this order to take place upon every Cart that shall come to this towne after due publication.

The Cedar swamp att Muddy river is lett to Ralph Mason his heyres and assignes for fifty yeares next ensuing, after the first of March next, in consideration whereof, hee shall pay yearly every first of March fourty shillings in wheate and pease proportionately; and hee is to pay fourty shillings for this summer, and a fayre livery Cupboard for the towne house.

Whereas many careless persons carry fire from one house unto another in open fire pans or brands ends, by reason of which greatt damage may accrue to the towne; It is therefore ordered that no person shall have liberty to carry fire from one house to another, without a safe vessell to secure itt from the wind, upon poenalty of ten shillings to bee paid by every party so fetching, and halfe so much by those that permitt them so to take fire.

Whereas there is an order in force for restraint of swine (within this towne of Boston) from passing the bounds of their owners styes or fences, which though judged meete to abide as an act, wherein the good and welfare of this place is much concerned; yett considering the present complaints of many for want of Corne to keepe their swine up with, and the unfitness of the season of the yeare for slaughter; And that no just grievance may bee to any by denying the benefitt of grazing in the common this summer; Itt is therefore declared that no advantage shall bee taken against any by force of the present order untill the first of October next, provided their swine bee sufficiently yoked and ringed as the law hath provided in that case. And whereas for the evading of the fines to bee leavied by distress for trespasses of swine according to towne order, many have refused to owne their swine, Itt is therefore ordered hereby that if no owner shall appeare, the hoggs trespassing shall bee forfeited to the towne, iff nott owned, and both fine and damage done by them to bee satisfied within one weeke.

[146.] 26 : 5 : 58.

Itt was voted that the instructions given formerly to the select men should bee in force still.

Resolved upon the Question

Whether the select men being necessitated to give security to the overseers of Capt. Keayne's will for his legacy of £60 to the use of the poore, should bee secured by the Towne from damage to their owne estates, or the estates of their successors as select men, itt was voted in the affirmative.

THE BOOK OF POSSESSIONS.

THERE is in the custody of the City Clerk, as part of the city archives, a book entitled *The Book of Possessions*, of which the following pages give a careful transcript. An abbreviated copy is in Drake's *History of Boston*.

Nothing definite seems to be known of the origin of this book, and from reasons hereinafter given I presume that it was compiled about the year 1652. SNOW (*History of Boston*, p. 128) only says that "It seems to embrace the period from 1640 to 1650." DRAKE (*History of Boston*, p. 785) makes the following statement: "In an original memorandum,* made by Isaac Addington, that gentleman says, 'When I was appointed Clerk of the County Court, in 1672, I found a book in that office, entitled on the cover, "*Possessions of the Inhabitants of Boston*."' Mr. Addington adds that while he was in office persons often came to consult the work, but he did not see its 'validity.'"

Of the value of the record there can be no doubt, and I therefore give a little space to the consideration of its probable date.†

At a meeting of the General Court, Oct. 19, 1652, it was voted, — that whereas the passing of houses and land in England was effectually done in various ways, and whereas certain in this jurisdiction were apt to rest upon a verbal bargain or sale for houses or lands, henceforth no such sale should be good in law unless made by deed in writing, under hand and seal and delivered, or possession given, etc., unless the deed be acknowledged according to law and recorded. (Rec. 111, 280.)

They had previously, June 19, 1650 (Rec. 111, 203), provided that a sale recorded by the recorder of the county should be sufficient without any further certifying to the Secretary of the General Court.

* I have been unable to learn where this memorandum was found, and Mr. Samuel A. Drake writes me that the original certainly was not in his father's collection. . .

† SHURTLEFF (*Description of Boston*, p. 408) would make the date about 1643, but I doubt if he had carefully considered the question.

May 6, 1657 (Rec. 111, 422), the Court recites, "The great neglect of many persons, in the infancy of these plantations, to observe any due order or legal course for the confirmation of such sales and alienations of houses and lands as have passed," and then orders that every one who did, before the passage of the law of 1652, possess or occupy house or land in fee simple, should ever after this date hold the same, unless a counter-claim was prosecuted to effect within five years from May 20, 1657.

We may fairly assume, therefore, that in October, 1652, there was an examination of the state of the titles to lands in the colony, and that Boston was not remiss in discharging this duty.

Another circumstance may have aided in calling for a new record. November 13, 1644, William Aspinwall was appointed Notary Public, and, as our records show, in that capacity he received acknowledgments of many deeds. In fact, there are references to the volume of the records of the Notary Public.*

But October 15, 1651, he fell into disgrace (Rec. 111, 257), for charging the Court and jury with going against law and conscience in making the landlord pay rent to the tenant, and Edward Rawson was appointed Recorder of Suffolk in his place, to whom Aspinwall was to deliver "all the records belonging to the said county."

At the same time, upon the request of the inhabitants of Boston, Jonathan Negoos was made clerk of the writs for that town, in his place, and Mr. Aspinwall was "ordered to deliver him the records of deaths, births, and marriages, as belonging to that office."

Again (Rec. vol. 4, pt. 1, p. 118), October 26, 1652, Nathaniel Souther was appointed Public Notary for this jurisdiction, in the room of William Aspinwall, and took the oath.

SAVAGE adds that Aspinwall went to England, and there published, in 1653, a queer book as prognostic of the millennium to open in twenty years.

As no record of the notarial volumes remains, it is not improbable that Aspinwall took them away with him, and that the town felt the necessity of a new official record of lands.

Our present volumes of Records of Deeds do not reach back as far as the original grants.

* For an example see p. 54 of the Book of Possessions. I think I have seen a mention of a second volume also. There are references in the text to a second volume of Possessions. See pp. 43, 50, 69 and 88 of the original. Also on p. 77 there is a reference to the "Great Book of Records of Copies, &c."

The earliest deed, so far as date of record is concerned, is entered under date of 8 mo. (*i.e.*, October), 1640. It is on page 13 of the volume, the preceding twelve pages being covered by miscellaneous matters.

Perhaps the most important of these papers are those relating to a number of passengers sent over in 1651, by the ship "John and Sarah," printed in the "N. E. Historical and Genealogical Register," pp. 377-380. They are supposed to have been a part of the Scotch prisoners taken by Cromwell at the Battle of Dunbar, Sept. 3, 1650.

The Record proceeds with reasonable regularity from that date, although volumes 112 and 114 have been missing ever since the Revolution, and a portion, pp. 280-340, inclusive, is wanting to volume 19.*

The second volume of deeds was begun April 7, 1654, by Edward Rawson, as he attests on the first page of the book.

The internal evidence points strongly to the summer of 1652 as the date of the compilation. Our Boston records (printed in the N. E. Hist. Gen. Register, x., 71) give the following deaths here : —

Sept. 14, 1652, Bozoun Allen died.
 March 1, 1651-2, William Ludkin drowned.
 March 1, 1651-2, Samuel Oliver drowned.
 March 1, 1651-2, George Bennet drowned.
 Aug. 24, 1652, Adam Winthrop died.
 Sept. 19, 1652, Mathew Parker died.
 Sept. 26, 1652, Thomas Stanbury died.
 Oct. 9, 1652, *Arthur Perry died.
 Oct. 7, 1652, William Blanchard died.
 Dec. 15, 1652, *Rev. John Cotton died.
 Jan. 18, 1652-3, *Captain William Tyng died.
 Jan. 1, 1653-4, *John Low died.
 Jan. 20, 1653-4, *William Dening died.
 Nov. 21, 1653, *Robert Woodward died.
 May 16, 1654, *Thomas Wheeler died.
 June 28, 1654, Samuel Norton died.
 July 23, 1654, *Mr. William Hibbins died.
 July 31, 1654, John Avery died.
 Dec. 9, 1654, *Maj.-Gen. Edward Gibbons died.
 Dec. 13, 1654, *Barnabas Fawer died.

* I do not know when this loss occurred. I believe it was unknown to the present excellent Registrar until this year.

The above list, in which those mentioned in the Book of Possessions are marked with a star, shows that none are named who died before October, 1652, while several are named who died very soon after. The only exception is William Blanchard, who died October 7, but who is not in the list. Probably he was not a householder.

The most striking cases, showing where the line was drawn, are those of Adam Winthrop, omitted, who died August 24, 1652, and Rev. John Cotton and Captain William Tyng, mentioned, who died respectively in December and January following.

The persons omitted, who died earlier in 1652, were men of note, and presumably householders. Bozoun Allen was a very prominent citizen; William Ludkin was a constable; Samuel Oliver, George Bennett, and Thomas Stanbury, all were married men with families. The inference is very strong, that had they been alive when the list was made their names would have appeared.

I have noticed but few apparent exceptions. Thus Jacob Eliot is named, but I think that the person meant was not Dea. J., who died in 1651, but his son, of the same name. So in the case of Atherton Haugh, or Hough, who is named, but who died September 11, 1650. His only child was Rev. Samuel H., of Reading, a non-resident, which fact *may* have caused the estate to be mentioned in the father's name.

Other cases may hereafter be found to correct the above suggestions; but in the mean time I must continue to consider the evidence as pointing to the summer of 1652 as the date of this great original record of the distribution of lands in the town of Boston.

THE BOOK OF POSSESSIONS.

[NOTE. — In the following transcript the abbreviations of the original have been followed, except in regard to “wth,” “wthn,” “&,” and “wch,” respectively printed “with,” “within,” “and,” “which.” These occurred so often that exactness in copying would have disfigured the text greatly. So, also, the use of capitals in the words east, south, west, north, has been abandoned, as the original was very irregular, and a partial use would have made the text less easily understood. The pagination of the original is given herein in brackets. W. H. W.]

CITY OF

BOSTON.

THIRD REPORT

OF THE

RECORD COMMISSIONERS.

IN BOARD OF ALDERMEN, Dec. 3, 1877.

Ordered, That the Record Commissioners be authorized to have transcribed the Charlestown Book of Possessions, and to have the same printed, bound, and distributed in the same manner as their first and second reports, at an expense not exceeding one thousand dollars; to be charged to the appropriation for printing.

Sent down for concurrence.

Dec. 13, came up concurred.

Approved by the Mayor, Dec. 14, 1877.

A true copy.

Attest:

S. F. MORTON

To His Honor the Mayor and the City Council.

In pursuance of the order of the Board of Aldermen herewith submit a volume containing the names and records of the town of Charlestown, as they are comprised in one book, and as they are now arranged in the archives as now arranged. The following statement has been made by the gentleman who was

of Charlestown, prior to annexation, to arrange the records : —

“The volume which you have caused to be printed, and which is lettered ‘Charlestown Archives 34 | Book of Possessions | 1638–1802,’ comprises, besides the record of 1638, and the transfers made during the succeeding twenty years, all records relating to the laying out and conveyance of land and the survey of streets and highways, originally dispersed in several volumes of our public archives, which properly could be separated from the other matter contained in the volumes in which I found them in 1869. This breaking up of old volumes and creating of new ones has been done by authority and in pursuance of joint orders of the City Council of Charlestown, passed in June, 1869, and April, 1870, directing a classification, arrangement, and binding of all the archives of the old town from 1629 to 1847, when it was incorporated a city. The result of these orders will be such a consolidation and chronological arrangement of our records under a few heads, such as (1) Town Records, (2) Treasury Records, (3) Vital Statistics, (4) Fire Department, (5) Poor Department, (6) Schools, (7) Voters, (8) Jurors, etc., etc., that, when my labors are completed, the future inquirer for information contained in our archives will readily find within a small compass the greater part at least of all that is extant concerning the department in which he shall be making special inquiry.

“Referring to the editorial note on page 186 of your report, permit me to say that it is perfectly accurate so far as the surveys of 1767 and 1802 are concerned ; but, unfortunately, the original reports of the committees which made the surveys of 1670 and 1714 are not now extant among our archives.

“The first entry in the town records respecting the compilation of the ‘Book of Possessions’ occurs in volume ii. (generally referred to as ‘Greene’s Transcript’), folio 35 (old pagination), and is in these words : —

“‘1638. The first month, The 26: day | Abra: Palmer, chosen by the Towne for keepeing the Towne Booke, as also to Record all pprieties of Houses, Lands, Meadow or Pasture, as any Inhabitants of y^e Towne are, or shall bee possest of accordg : to an ord^r of Court provided in y^t. behalfe.’

“It is reasonable to presume that Mr. Palmer began his labors without unnecessary delay, and that the following entry was made on the completion of his work of engrossing the schedules handed in to him by the major portion of the inhabitants, since the mere clerical labor involved in executing this important commission was by no means inconsiderable.

“ ‘ 1638.

“ ‘ On the 28th day of the X month was taken A True Record of all such houses & Lands as are Possessed by the Inhabitants of Charlstown, whethr by purchase, by gift from the Towne, or by allottments as they were devided amongst them by A Joynt Consent afr the Gen^l Court had settled theire Bounds, by granting eight miles from the old Meeting house into the Contry Northwest Northrly, &c. the bounds of the s^d Towne Lying or being bettwixt Cambridge *alias* New Towne, on the West South west, & Boston Land on the East as it apprs upon Record by the sever^l grants of Gen^l Courts to all the affores^d Bounds.’

“ Mr. Palmer recorded a large proportion of the ‘ Possessions ’ with his own hand ; but there are many pages in the peculiar handwriting of Elder Nowell. Those persons who are familiar with the chirography of those gentlemen need no further confirmation of this fact than a glance at the record itself ; but, as if to insure to posterity the fullest possible account of the preparation of this book, the town clerk of that period makes this entry : —

“ ‘ 28 (11) 1638.

“ ‘ Abra: Palmer was allowed £3 for wrighting this yeare past: & Mr. Nowell 20s. for helping in Acco: ’

“ Here we have a complete record of the authority under which the volume was prepared, and of the hands to which its compilation and engrossment were confided.

“ An order, imposing a fine upon delinquents, is here transcribed : —

“ ‘ 27 (11) 1639.

“ ‘ It was ordrd the first of 8 ber last, yt any that have not dd in A note of theire Lands to Mr Abra: Palmer to have entered in ye booke shall pay to the Towns use 2s. A month afr notice given from the s^d first of the 8 month.’

“ In this connection it should be remembered that Charlestown originally embraced within its limits the territory now contained in Woburn, Burlington, Stoneham, Malden, Somerville, and parts also of Reading, Medford, Cambridge, and West Cambridge.

“ Nor was the importance of *maintaining* the completeness of the record lost sight of, for in 1643 we find the following entry : —

“ ‘ 1643. The 23^d of the IV month | .

“ ‘ It is ordrd yt all purchases & alienations of houses or Lands shall be Recorded in the Towne booke, & whosoever shall neglect to Record any such purchase or Alienation for above A month shall forfeit five shillings.’

“ This was followed by a more stringent order passed (probably in March)

“ ‘ 1644.

“ ‘ Whereas it was formly ordrd at A meeting an: 1643. in the 4th mo: That all purchases, & Alienacons of houses or Lands should bee Recorded in A Towne Booke upon a certaine penalty therein expresst, wch notwithstanding hath beene neglected: It is now farther ordrd yt all Purchases, & Alienations yt have not beene formly Recorded, or shall hereafter bee made for time to come, shall within A month after the publication of this ordr bee brought in to the Secretary for the Towne affaires, upon the forfeiture of sixe shillings eight pence for every defect, to bee levied by A Towne officer, & for every such Record the Secretary to have foure Pence.’

“ Much to be regretted is the loss of the folio — apparently the only one that is missing in the whole volume — on which, as we learn from the ancient index, were recorded the possessions of the Rev. John Harvard, the founder of the College. It seems, indeed, as though a strange fatality attended everything pertaining to Harvard’s private life, his lineage and his possessions; and so few are the known facts concerning him that I have copied, verbatim, from our records the following entries certifying his admission as an Inhabitant and the esteem in which he was held by his contemporaries: —

“ ‘ 1637. The 1st day of the vi. month. |

“ ‘ Mr. John Harvard is admitted A Townsman with pmise of such accomodations as wee best Can.’ ”

“ ‘ 1638. The 26 of the ii. month. |

“ ‘ Mr. Increase Nowell, Mr. Zachr Sims, Mr. Jno Greene, Mr. Jno Harvard, Lieft Ralph Sprague & Wm Learned were desired to considr of some things tending towards A body of Lawes, &c.’

“ Since you have suggested that a full list of Town Clerks, or Recorders as they sometimes were termed, would give additional value to your report, I have prepared the following schedule, regretting that I have not at present at my command the time necessary to a scrutiny of the third and fourth volumes of our Town Records for the purpose of ascertaining if, buried in their obscure hieroglyphics which are intelligible only to a practised eye, the precise date is preserved of the appointment of Edward Burt. Such an examination as I have been able to make of these volumes fails to afford more than the approximate date appended to his name.

“ TOWN CLERKS OF CHARLESTOWN. 1629–1847.

“ INCREASE NOWELL. — There is no record of his first appointment, but our earliest, extant, *original* records, dating from 1634, are in his handwriting. On the 22 (11) 1635, it was *Ordered*, ‘ That Mr. Increase Nowell have 40s. for writeing the ordinary Transactions of the Town Last yeare.’

“ ABRAHAM PALMER was chosen 26 (1) 1638.

"JOHN GREENE. — Mr. Palmer was one of the Selectmen, as well as Town Clerk as late as Jan. 12, 1643-4. At the succeeding election, 2 (11) 1645, Elder Greene was elected in his stead, and appears to have entered upon the office of Recorder at the same time, although the records are silent as regards his formal appointment to that service *at that time*.

"In fact the original record of the meeting held 2 (11) 1645, is in Greene's handwriting, and is the first record of municipal proceedings preserved *in the original*, which occurs after a hiatus of eleven years, and follows Elder Nowell's record of a meeting in January, 1635. It is, therefore, safe to conclude that Elder Greene's service as Recorder began 2 (11) 1645.

"SAMUEL ADAMS appears to have acted as Town Clerk at intervals between 1653 and 1661, and was honored with an election by the Inhabitants 3 (11) 1658, Elder Greene having died April 22 of that year.

"EDWARD BURTT acted as Recorder in 1658, although I fail to find the precise date of his appointment. He served till about the year 1663.*

"JAMES CARY was chosen April 7, 1663.

"LAWRENCE HAMMOND was chosen Jan. 27, 1672-3.

"JAMES RUSSELL was chosen Jan. 14, 1677.

"JOHN NEWELL was chosen March 11, 1678-9.

"NATHANIEL DOWS [DOWSE] was chosen March 2, 1695-6.

"BENJAMIN DOWS, JR., [DOWSE] was chosen Sept. 4, 1719.

"THOMAS JENNER was chosen Sept. 12, 1720.

"SAMUEL PHIPPS was chosen March 7, 1725-6.

"JOSEPH PHILLIPS was chosen March 4, 1727-8.

"SETH SWEETSER was chosen Jan. 20, 1755.

"WALTER RUSSELL was chosen March 2, 1778, but had acted as town clerk for several weeks previous to that time. Mr. Sweetser's last entry in the records bears date Jan. 13, 1778.

"SAMUEL SWAN was chosen March 1, 1779.

"TIMOTHY TRUMBULL was chosen March 6, 1780.

"SAMUEL SWAN was chosen October 23, 1782.

"SAMUEL HOLBROOK was chosen March 3, 1783.

"SAMUEL PAYSON was chosen March 5, 1787.

"PHILLIPS PAYSON was chosen August 3, 1801.

"JOHN KETTELL was chosen March 3, 1806.

"SAMUEL DEVENS was chosen March 2, 1812.

"* It has been stated in print that Nicholas Shapley served as Town Clerk for a few months in 1662 — during the interval which elapsed between the retirement of Burtt and the election of Cary; but I doubt the accuracy of the statement, and am of opinion that Mr. Shapley served only as Clerk of the Writs, to which office he was chosen July 27, 1662."

"JOHN KETTELL was chosen March 1, 1813.

"DAVID DODGE was chosen March 7, 1814.

"JOHN KETTELL was chosen March 2, 1818.

"CHARLES DEVENS was chosen September 30, 1822.

"DAVID DODGE was chosen March 7, 1825.

"Mr. Dodge continued in office till the incorporation of the town as a city, and reluctantly consented to an election as first city clerk. The infirmities of age were upon him, and he retired from office before the close of the year for which he was elected, after more than twenty years of faithful service. To him we are deeply indebted for the excellent records of the period of his own term of service, and for the preservation and transmission of much valuable matter that would have been irretrievably lost but for his zeal and watchful care and untiring industry.

"I believe that the foregoing list includes the name of every person who held the office of Town Clerk or Recorder of the Town of Charlestown. It is possible, however, though not probable, that, for the reasons above stated, the name of some person who acted in that capacity for a few weeks or months by appointment of the Selectmen, may have been overlooked; but such an omission, if there be any, is of slight importance." *

The Commissioners would add that, as in the previous volumes, they have not felt at liberty to insert any annotations. The liberality of the city is sufficiently taxed in placing the text of these records before the public in an accurate transcript. The only notes are such as relate to the text itself. It may also be added, that the index is not to be considered a part of the volume, not having been prepared at the cost of the city. It is hoped, however, that it is both accurate and comprehensive, and that it will be found of service.

It also seems proper to annex a statement of the cost of the volumes already issued: —

"* Since I have had occasion to mention the Charlestown records, covering the period from 1658 to 1695, and the great difficulty in consulting them experienced even by those persons who are most familiar with the exceedingly bad chirography in which they are written, I beg leave, respectfully, to call the attention of the Record Commissioners to these volumes. They have been carefully repaired and bound during the past decade, but even now are in a frail and perishing condition.

"A single additional report, equal in size to the one you are about to issue, would suffice to present in type all the records now known to be extant of the municipal proceedings of the Town of Charlestown, from its settlement down to about the year 1695. These records treat largely of the grants made by the town to its early inhabitants, of boundaries, and the laying out of highways and commons; in fine, of matters which would greatly aid conveyancers and our City Engineers and Surveyors in the prosecution of their labors at the present time, could they but have the material in print. The Charlestown Records are unusually full as regards land matters; and when the extent of territory originally covered by the town, and the condition of the records themselves, are taken into consideration, the importance of printing them appears in the strongest possible light."

First Report, pp. 183, estimated cost . . .	\$900 00
Cost of 1,500 copies, 500 being bound in cloth	824 08
	<hr/>

Second Report, pp. 229, estimated cost . . .	\$1,000 00
Cost of same number of copies	736 87
	<hr/>

Third Report, estimated cost	\$1,000 00
----------------------------------------	------------

The Commissioners may perhaps anticipate that other portions of the city, as Roxbury and Dorchester, may call for a similar publication of their records of early grants and possessions of land.

There has also been a feeling manifested in favor of printing the first volume of deeds for Suffolk County, inasmuch as the expense would be but little greater than that of a manuscript copy. Certainly the old town of Boston requires a second volume of extracts from its records, to complete the grants of lots and the laying out of streets.

Whilst the Commissioners will cheerfully discharge any duties of the above-named nature which may be assigned to them, they beg leave to repeat their previous notice that their main duty is still unfulfilled. The transcripts of the Church records, to supplement and complete the records preserved by the City Registrar, are still to be made. They hope, therefore, to receive instructions during the next year, to make a beginning upon their most necessary and long-delayed work.

The preparation of the following volume has devolved solely upon the undersigned.

For the Record Commissioners,

WILLIAM H. WHITMORE.

Boston, December, 1878.

CHARLESTOWN LAND RECORDS.

NOTE. — The pagination in brackets is that of the volume as now bound up and interleaved. The numbers are on the page facing the old leaves; but the original was numbered by folios only.

Page 1 of the bound volume is a new printed title-page. Page 2 (*i.e.* folio 1 of the original) contains the following random entry, evidently misplaced, as it is also found in the first volume of Town Records:—

“It is agreed that Thomas Beecher, William Jennings and Raphe Sprague are apoynted to bee at the meetings, and to bee of them to p’sent the towne at the generall court next In September.

Page 3 (reverse of folio 1) contains an old Index of the List of Possessions following; and, although folio 2 (pp. 4 and 5) is missing, we learn by this Index that on it were recorded the possessions of John Harvard. — W. H. W.

It appears from a note by Mr. Edes that the remaining folios in this book originally constituted the final part of Town Records, Vol. II. (Greene's Transcript), being 36 leaves or 72 pages. These are original records, and begin with the Survey of the Town Highways made in 1670. The original reports are also preserved in the City Clerk's office, and vary somewhat in some details. These now printed are, however, the formal and attested record, and it has not seemed necessary to collate them with any earlier drafts. — ED.

JN^o. NEWELL, Record^r.

Charles Town, Decemb^r. 15th, 1681.

The Committe Appointed to Oversee & manage Sundry matters relateing to the Stinted Pasture, Usually Called the Common, Lying without the neck of Land in this Town, doe Signifie to the proprieto^rs as ffollowth.

First, that wee have wth much paines & Care, examined ye Sundry Claims that have been made by any persons unto A propriety in the Sd Co^mon, or Stinted pasture; And doe find the respective proprieties, or Numb^r of Com^mon^s mentioned in A List herewth presented; to be the clear & Honest rights of the persons respectively named in the Sd List. All wch doe Amount unto the Numbr of Three hundred Thirty one Common^s.

Secondly, that the proportions of Commons of right belonging to each p^rson as in the Aforesd List are Expressed, Shall be Confirmed by the proprietors, may be Recorded in the Town book, to Stand as their proper Estate to them And their heires for Ever, the Charge of recording to be paid by the proprieto^rs: This wee propose as necessary for the future Settlement of the right of each proprieto^r; for the prevention of all after disputes relateing there Unto.

Thirdly, Wee conceive it necessary that one Acre & A halfe of Land to A Common (According to the Vote of the proprieto^r), be Laid out at the hither end of the Co^mon, Excluding all necessary Highwayes, both publicke and private.

Fourthly, Wee propose that the peice of Land lying next the Towne, Viz.: from Jn^o. Mousall^s gate, Upon A line Over to the lower Corner of Thomas Crasswell^s Land, all y^t Land wthin that line Unto the neck of Land, be Left in Common for publick Military Exercises, &c.

Fifthly, It will be necessary y^t the laying out of the proportions of Land to Each Commoner, or proprieto^r, be referred Unto A Committe of meet p^rsons to be chosen together with the Artist, who are to Regulate the Same, According to their best discretions, in the most Equitable manner; the proprietors Voted the first Committe to manage this 5th Article.

Sixthly, y^t Lotts be made by the sd Committe, & Numbred according to the Number of the proprieto^r, who, upon timely notice given, shall meet & draw their Lotts, and according as the Number of their Lotts shalbe, So Shall their proportions of Land be Laid out neer or further off, the Line to begin at Jn^o Moussall^s.

Seventhly, That the Remainder of the Common wch lies Undivided, bee cleered of brush & Superfluous Trees; y^t it may be renderd fitt for pasturage, & y^t it be referred to the Committe to contrive the most Expedient wayes to Effect it.

[241.]

Eightly, That it be likewise referred to the Committe to Order the fencing of the Common Against M^r. Ledgits ffarme, as may be according to their best discrection^s most Accommodable to ye proprieto^rs.

9ly, that Each range be forty poles in Length: And that the land on the South Side of Cambridge Road butting to the marshes,

of this side of Tho. Crasswell brook, may be Left to the Committe for to Agree with the proprieto^{rs} of the Sd marsh for Sd Land, on as profitable Terms for the proprieto^{rs} of the Common as they Can.

10ly, That a range of Lotts begin at Widow Peirces (by the Country road, of ffour poles wide) and So to Abraham Smith, & so on the Westrly side of the highway Successively Unto Patrick Marks, Untill that Land is Laid out: All these foregoeing Ten Votes past in the Affirmative the day before s^d by y^e Proprieto^{rs}.

Attest:

JN^o. NEWELL, *Record^r*.

The Committe proposed to the proprietors of the Stinted Common as Foll: 2^d Janvary, 1681.

1ly, To propose the Conveniency of proceeding as farr as Johnson^s Lott from Patrick Marks, in Laying out Land to those who Adjoyn to it, and shall desire it, Leaveing open Sufficient watering places.

2ly, That Such proprieto^{rs} As shall not Improve their Land, but Suffer itt to lye Unfenced, Shall have no benifitt of feed in the Comon thereby, more then by right of Commons they now have.

3ly, Thomas Peirce moves y^t A triangle of Land lying on the upper Side the highway before his Land, & under the Land of Father Bullard, may be granted to him, in part of his proportion, wch the Committe Judges reasonable, & noe damage to the proprietor^s.

4ly, Thomas Welch moves y^t he takeing Six Acres of bad Land lying before his house below the highway, he may have allowed him three Acres of Land above the highway, Adjoyning to his Land, for wch he is willing to Allow Three quarter^s of an Acre.

This Third & fourth Vote Left to the Committe.

5ly, The high way Above the ffourth Range to be Three pole wide, it being A road y^t wilbe much in Use, it begining between ffoskitts & Huchinson^s Land, & run^s Cross over to Welch^{es}.

6ly, That what Land is Already Laid out to perticuler person^s by y^e Approbation of the Committe, by Vertue of A power given them by the proprietors, be now Confirmed to the sd person^s as their Estate, to them their heyres & Assignes for ever: Provided y^t the rest of the proprietors have their proportions in the remainder of the land to be divided, be accordingly Confirmed.

7ly, That noe person shall have his Land Laid out after he hath drawn his Lott, Untill he hath A Certificate Under the hand of the Record^r, Signifying the Numb^r of Acres to be Laid out to him.

8ly, That the land y^t is not to be laid out in this divission, but remain^s In Common, Shall not be Charged wth any ffence Against the Land y^t is now to be Laid out.

These Eight Abovesd Votes were past in the Affirmative by y^e proprieto^{rs} at their meeting the day Abovesd.

MIDDLE LANE. — From the fifth Range Way along the Top of the Hill is a way running aCross the Range Ways till you come into the Way call'd 3 Pole Lane, open all the Way; said Way is call'd Middle Lane.

SIXTH. — Then we measur'd the 6th Range Way. We began on Menotomy Road, and measured Southerly 66 Rods & an half, inclosd and improv'd by M^r David Wood. By Sam^l Kent, still Southerly, Shut up & improv'd by him. By Sam^l Rand, still Southerly, shut up & improv'd by him 8 Rods. By Joshua Rand, Shut up & improv'd by him Still Southerly 40 Rods. By Peter Tufts, shut up and improv'd by him, Still Southerly 38 Rods and

an half. From the last mentiond Place to the Quarrie Still Southerly 79 Rods, which is fenc'd each side of the way, but at said End of the Lane, Charles Hunnewell has put a Fence & Improv'd it, but not so as to hinder Cattle's passing thro. said Quarrie being on Kents Street.

SEVENTH. — Then we began at Menotomy Road, and measur'd the Seventh Range Way from said Road Southerly 42 Rods, shut up & improv'd by M^r Lynde. Then measur'd still Southerly 40 Rods & $\frac{1}{4}$, shut up & improv'd by Peter Tufts, ju^r. Then measur'd still Southerly 12 Rods & 4 Feet, shut up & improv'd by Mr Lynde.

[280.] SEVENTH RANGE, CONTINUED.—Then we measur'd still Southerly 11 Rods & 2 Feet, shut up by Mansfield Tappling & improv'd by him. Then we measur'd still Southerly 20 Rods, Shut up & improv'd by Lynde. Then we measur'd still Southerly 36 Rods, Shut up & improv'd by Jon^a Hill, of Cambridge, from that to Kents Street open.

EIGHTH RANGE WAY.—Then we began at Kents Lane & measur'd to Lynde's House, is not shut up, & from thence Northerly 168 Rods & $\frac{1}{4}$ shut up & improv'd by Lynde. then we measur'd still Northerly till we came to Menotomy Road 28 Rods & $\frac{3}{4}$, shut up & improv'd by Nathan Tufts.

MENOTOMY ROAD, CONTINUED.—From Nathan Tufts to Watson's, formerly Quarrie Hill, a little way from the Corner leading to Menotomy is 4 Rods & 4 Feet. From the N W Corner of said Watson's Land by the Brook to M^r Russell's Land, is 4 Rods & 4 Feet.

From the Range Way just beyond the Brook across the Road is 4 Rods & 11 Feet.

From M^r Russells House over to Cookes Land, 4 Rods.

From the Range way by Walter Russells over is 4 Rods wide ; said Walter Russell encroach'd 4 Feet.

From Patten Russells over to Teels, 4 Rods & 8 Feet.

Down at Menotomy or Fillebrowns Bridge, from Fence to Fence, is 8 Rods and 10 Feet, and so runs quite to the Brook, which makes it 5 Rods. But M^r Dicksons has fenced off a piece, the lower side the Way, which prevents the Ro[a]d on that part coming to the Brook, and says he has a Deed of it, but we are of Opinion, according to former Records, & by the Situation of the Place, it belongs to the Town for a fishing place.

There is a Piece of Land of 5 Rods on the Brook the other side the Bridge belonging to the Town which we cannot particularly describe, for want of the plan, which is mislaid by some persons.

Then we measur'd 3 Range Ways in the upper Part of Charlestown, between Menotomy Road & Medford River.

FIRST RANGE WAY.—We began on Menotomy Road, near two penny Brook or Walnut Tree Hill, & measur'd the first Range Way, Northerly 90 Rods & $\frac{3}{4}$, Shut up and improv'd by M^r Russell; then still Northerly 24 Rods, shut up & improv'd $\frac{1}{2}$ by M^r Russell & $\frac{1}{2}$ by M^r Fosdick; then running still Northerly 5 Rods, shut up wholly by M^r Fosdick & improv'd by him; then we

measur'd still Northerly, this being Medford Bounds, 85 Rods, shut up & improv'd by Nathan Tufts; then still Northerly 169 Rods, shut up & improv'd by Brigadier Royall, which brings us to way which passes by our Fish Place on Medford River.

SECOND RANGE WAY. — Then we began at M^r Ja^s. Tufts near Medford River, & measur'd Southerly 120 Rods, shut up & improved by Ja^s Tufts, which brings us into Charlestown; still Southerly we measur'd 142 Rods, which brings us to Menotomy Ro[a]d, shut up and improv'd by M^r Russell.

THIRD RANGE WAY. — Then we began on Menotomy Road, & measur'd the third Range Way Northerly, partly open, & then still Northerly, shut up, 20 Rods, partly by Dickson, partly by Smith, this being Medford Bounds. Then proceeded still Northerly to Medford River to a Rock, which measures 160 Rods, shut up & improv'd by the Rev^d M^r Smith.

There is by the Records a place for Gravel about $\frac{1}{2}$ an Acre of Land on Mistick River just above the Bridge bounded as follows: Westerly by Land formerly Jonathan Tufts^s, now Brigadar Royalls, 10 Rods, & $\frac{1}{2}$ Northerly on said Tufts^s Land next the Marsh, 7 Rods, from whence a 2 pole way, running down to the River, Butting Easterly on the Country Road 5 Rod & $\frac{1}{2}$, and Southerly upon the way that Leads to the Ford or Landing place 9 Rods, which way is 2 Rods wide to the Landing place, now improvd by Eb^r. Marrow, and which he challenges as his property.

There is a piece of Land about $\frac{1}{2}$ an Acre belonging to the Town for a Landing or a Fishing place on Medford River, which is Bounded as follows, viz^t: on Land formerly M^r Jon^a Tufts, now Brigadier Royells, measuring from the Road at east End back to the River Northerly 8 Rods, from said East End along the Road to a stake, measuring 24 Rods Westerly, and from said stake Northerly to the River is 2 Rods, all straight Lines.

There is a p[']ce of Land belonging to the Town, upland & Marsh; the Pound standing on one Corner of it, containing about 2 Acres, bounded as follows, viz: Easterly on the high way, Westerly on Nat^l Browns Land, and, as the Creek now goes, runs into the Mill Pond Southerly upon Peter Edes^s from the high to the Mill Pond.

There is a wat'ring place belonging to the Town lying on Medford River, bounded as follows: Bounded on each side by the Land of M^r W^m Smith S: W: 29 $\frac{1}{2}$ Rods N: E, 28 Rods & $\frac{1}{2}$ South East on the Range Way, leading to the River 2 Rods, the Breadth at the Bottom next the River Northerly 13 Rods & $\frac{1}{2}$, which lyes a little to the Westward of Smith's house.

[281.] From Dixon's to M^r Russells Land the West side the Bridge is 2 Rods & 9 Feet.

MENOTOMY ROAD CONTINUED. — Between old M^r Dixon & his son 28 Feet, Encroach'd by both of them considerably as it shou'd 3 Rods.

From the W Corner of Dixon's Land across 2 Rods & 12 Feet, Encroach'd 4 Feet and an half.

From the W Corner of Deacon Cutlers, now Lying common, across the Way, 2 Rods six Feet.

At the S. E. Corner of Winships Land, formerly Cooks, over across the way, 2 Rods & seven Feet.

From the S^o Corner of Jos: Adam^s Land, over the Way to Town^s Landing by Cartwrights, 2 Rods 2 Feet.

From Winships Land to Belknaps across is 2 Rods 14 Feet.

From George Cutters to Winships across at the Entrance which Leads to Menotomy, 3 Rods.

From Cutlers across to Adam^s as you go to the Wares, 3 Rods.

From Cutlers Barn to Joseph Adams across, 2 Rods 15 Feet.

From the N E Corner of Holden's House across is 2 Rods & 12 Feet.

At the Bridge is 2 Rods and 8 Feet across; the Road between Holdens & the Bridge encroach in several places.

WAY FROM CAMBRIDGE BOUNDS TO WOBURN BOUNDS. — Then we measur'd the Way from the little Bridge which makes Cambridge Bounds towards Sam^l Cutters to the Top of the Hill, making a Corner which leads to Cutters Mill.

the Road is 2 Rods & half wide all the way.

At the Bottom of said Hill leading to said Cutter's in the Valley is 2 Rods & 2 Feet; at the Bottom of said Hill or Valley S of said Cutters House is 3 Rods 10 Feet; at the S^o Corner of Cutters House from Fence to to Fence across is 2 Rods & 3 Feet; at the N E Corner of Cutters House across from Fence to Fence is 4 Rods; said Cutter hath fenced off a piece of the way for a Garden.

Between Francis & Cutter is 3 Rods 10 Links, Between D^o further along is 2 Rods.

Between Adam's & Sam^l Cutter is 2 Rods & 3 Feet.

From the House formerly Dan^l Reeds across the Road is 3 Rods & 2 Links.

At the foot of the Hill is 2 Rods & 12 Feet across, at the Top of the Hill towards Seth Reeds across, 2 Rods 6 Links. At the S^o part of said Seth Reeds House across is 2 Rods & $\frac{1}{4}$. At said Reeds Barn across the Way is 2 Rods 9 Feet. The Road between Reeds Land rising the Hill 3 Rods 6 Links across. The Road above the Brook across is 2 Rods, but encroach'd one Link by Reed.

At the Brook between Adams & Swan is 3 Rod 1 Link. From the S^o E: Corner by Swans House to Adams Land is 2 Rods 10 Feet.

A the Top of the Hill between Hartwell & Hartwell is 2 Rods 13 Feet. Between D^o at the Brow *at the Brow* of the Hill 2 Rods, but encroach'd by Hartwell 18 Inches. At the Bottom of the Hill between D^o is 3 Rods & 8 Feet. Further along between D^o is 2 Rods & 14 Links.

Between Gardners & widow Hartwells thirds is 2 Rods 13 Feet. At the lowest Corner of Gardners Garden over to the Wall by the Cyder press is but 29 Feet, should be at least 2 Rods, encroach'd by said Gardner on the Way at least 4 Feet by the Wall near the Cyder press.

At the S^o Corner of Gardners House across the Way 3 Rods 2 Feet. At the Bounds of Woburn from Corner to Corner of Gardners Land is 3 Rods & 2 Feet.

We have carefully measur'd every Place, & find as we have reported in the above & sheets annex'd, & have taken great Care & Pains to Search the Towns Records relative thereto.
